

WORSHIP BAND DYNAMICS

COURSE OVERVIEW

Over three sessions, discover the **Worship Ministry Process** and how it can give your worship team a handle on the week-to-week operations involved in your ministry and to succeed in them.

(1) Preparation

Finding a chord chart is easy, right? Not so fast! Learn the skill of critical listening and how to break down any song that comes your way, whether simple or fancy. Apply arrangement concepts like rhythm layering and simple reharmonization to make a song uniquely your own.

At the end of this step, you will produce a *complete chord chart* that will give your song a road map every step of the way from start to finish.

(2) Rehearsal

Now that your chart is up and ready, your team has to try the arrangement out. Learn best practices and tips to get the most out of your rehearsal time.

At the end of this step, the team will be familiar with a *guide track* containing both click and vocal cues for your arrangement.

(3) Service

With rehearsal done, your team is ready to serve your congregation. But things don't always go according to plan. With an in-ear monitoring system, your Music Director will guide you through the set, giving you reminders, handling corrections live, and pushing the team towards excellence.

At the end of this step, the team will develop an appreciation for the *creative possibilities* with a Music Director.

COSTS & PRE-REQUISITES

We offer this course at a special group rate of **\$120/hour**.

Although there are no formal musical pre-requisites to attend this course, basic skills like following a chord chart and listening to a metronome will be beneficial.

The course is targeted at worship leaders and music directors, but all involved in music ministry are encouraged to attend so that the whole team embarks on a learning journey together.
